## Diseases tab

This screen is where user should list any infectious disease with age and date of initial infection and any remarks.

The screenshot shows the 'SOS Data Tag' application window. The title bar includes the SOS logo and window control buttons. The main header area features the SOS logo, a text instruction: 'After you have entered your information, click the Create Emergency File button, click on My Computer and select the SOS USB drive to save the information.', and a green 'Create Emergency File' button. To the right is a blue Star of Life medical symbol. Below the header is a navigation menu with tabs for Identification, Images, Allergies, Medical History, Health Log, Medications, Diseases (selected), and Immunizations. The 'Infectious Diseases' section contains a table with the following structure:

Disease	Age	Date	Remarks
Chickenpox			
Measles			
Rubella			
Hepatitis			
Mumps			
Polio			
Pneumonia			
Pertussis / Whooping Cough			
Scarlet Fever			
Other
